```csharp
using System;

using System.Windows.Forms;

namespace RoboticArmControl

{

    static class Program

    {

        [STAThread]

        static void Main()

        {

            Application.EnableVisualStyles();

            Application.SetCompatibleTextRenderingDefault(false);

            Application.Run(new MainForm());

        }

    }

}
```
